### Closure Design & Construction – Creston Landfill Ph.1A & 1B Closures

*The Regional District of Central Kootenay retained SHA to undertake design, construction management and QA/QC on the Phase 1A&1B Closure Project.*

*SHA provided a full range of engineering services on this assignment that included a conceptual and detailed design package, technical specifications, tendering services and construction management.*

*SHA also worked closely with Metro Vancouver in fabricating subsoil and topsoil material with Class A Biosolids from the Annacis Island WWTP and Class B Biosolids from Iona WWTP. Approximately 2,000 tonnes of Biosolids were utilized.*
