Design, Operations & Closure Plan – Gibraltar Mine Landfill

- *SHA conducted preliminary siting investigation for a landfill on a waste rock dump at the Gibraltar Mine near Williams Lake, BC.*
- *Prepared detailed design, operations and closure plan for the landfill.*
- *Analyzed slope stability, geology, hydrogeology and water quality.*
- *Prepared phasing plan for landfill development and progressive closure.*
- *Provided recommendations for liner design, operations, filling, environmental monitoring, leachate management and environmental control systems.*
- *Conducted quality assurance and quality control during the development of the Phase 1 liner system and leachate storage pond.*

Cariboo Regional District: Mitch Minchau – 1-800-665-1636

Project Budget \$50,000
