Crown Packaging Landfill Design, Operations and Closure Plan.

- *Landfill accepts materials from the cleaning system in the mill.*
- *Developed a contour plan and filling schedule that would maximize site capacity.*
- *Developed environmental monitoring program, drilled wells, conducted routine monitoring of surface and groundwater.*
- *Completed environmental risk assessment for receiving environment due to high concentrations of iron and manganese.*
- *Investigated several methods of treating leachate, recommended routing leachate into the mill effluent treatment stream.*
- *Compared the leachate treatment costs to the installation costs for four Cover System Concepts to determine the most cost effective approach.*
- *Prepared a detailed Environmental Monitoring Program for the site.*
