Design Build Project – Bailey Landfill (Chilliwack) Liner and Groundwater Interceptor

- *Spierling Hansen Associates and Southwest Contracting completed a 1.1 ha (11,000 m²) liner installation.*
- *Design challenges included steep slopes (2H:1V) and dealing with groundwater flow behind the liner system.*
- *An HDPE leachate collection system was installed at the toe of the liner.*
- *Double-sided textured HDPE membrane served as the primary barrier layer.*
- *A groundwater interceptor and pore pressure relief drain were used to eliminate head build-up behind the liner.*

City of Chilliwack Contact: Tara Friesen, P.Eng. (604) 793-2701
Engineering Project Budget: \$127,000
