District of Squamish – Development of Long Term Solid Waste Management Strategy

- *SHA has been working with the District of Squamish and Carney's Waste Systems since 1998 to develop and implement a long term waste management strategy.*
- *Systems that were evaluated for long term waste management have included Pyrolysis and Gasification, conventional Waste to Energy and waste export to Rabanco.*
- *A Regional Landfill Strategy was determined to be the most cost effective solution for long term waste management.*
- *SHA is currently developing a detailed design for the Sea-to-Sky Regional Landfill for the District of Squamish.*
